

The Elizabethan Era (1558-1603): A Web Quest

English 9 Regents

"I may not be a lion, but I am a lion's cub, and I have a lion's heart!"

- Elizabeth I, Queen of England 1558-1603

Introduction:

To fully appreciate Shakespeare's works, it is important to learn about the time period in which his works were written. This assignment requires students to investigate life during the Elizabethan Era (the 16th century) in England. The investigation will enable students to understand the people, places, and events of the Elizabethan era and, in effect, provide a deeper appreciation of Shakespeare's play *Romeo and Juliet*. This assignment will also help students understand how society influences literature.

As students navigate through the websites provided below, the questions included under each topic heading will serve as guides – it is up to each group to gauge what material is essential and necessary to share with classmates.

Task:

Each student will be assigned to a group of three to four members. Each group will investigate a specific topic and will do a presentation to teach the rest of the class about the topic researched. The final product will be a group slideshow. Options are powerpoint, prezi or a slideshow via GoogleDoc's Presentation system.

Method:

Once groups are determined, students will decide which topic below they are interested in covering. Topics can only be covered by one group each.
